December 16, 2005

Dear Sir:

I, Marilyn L. Amick, hereby state that:

1. The following cultures referred to in the specification of this application have been deposited:

Strain	Deposit No.
Cell line NEAMP 48.2	PTA-5295
Cell line NEAMP 62.1	PTA-5294

2. The dates of the above deposits are before the U.S. filing date of this application:

Strain	Date of Deposit
Cell line NEAMP 48.2	June 26, 2003
Cell line NEAMP 62.1	June 26, 2003

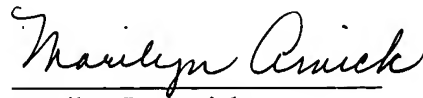

3. The name and address of the depository is:

American Type Culture Collection  
10801 University Blvd.  
Manassas, VA 20110-2209

4. A statement that the cultures deposited with the above named depository were viable and were capable of reproduction, if appropriate, on the date of deposit is attached. Such statement is executed by the depository.
5. With respect to the permanence of the cultures deposit, the depository is an official depository, in accordance with the Budapest Treaty for the above deposited cultures.
6. With respect to availability of the cultures, I affirm that the deposits have been made under conditions of assurance of (a) ready accessibility thereto by the public if a patent is granted whereby all restrictions to the availability to the public of the culture so deposited will be irrevocably removed upon the granting of the patent and (b) access to the culture will be available during the pendency of the patent application to one determined by the Commissioner to be entitled thereto under 37 CFR §1.14 and 35 USC §122.

7. I affirm that, should the microorganisms mutate, become nonviable or be inadvertently destroyed, Applicants will replace such microorganisms for at least 30 years from the date of the original deposit, or at least 5 years from the date of the most recent request for release of a sample or for the life of any patent issued on the above-captioned application, whichever period is longer.

The deposits were accompanied by:     a scientific description     a proposed taxonomic description indicated above. The deposits were received June 26, 2003 by this International Depository Authority and have been accepted.

AT YOUR REQUEST:   X   We will inform you of requests for the strains for 30 years.

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strains.

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested July 8, 2003. On that date, the cultures were viable.
